Grade Report

Design Grading:

Correctness: 9/10

Data Design: 3/5
: Attribute can never be empty. Template Wrong
: Template for Xexpr wrong

Function Specification: 4/5
: local function missing design spec (rest-has-list-of-lists?)
: Strategy missing for xexpr-loc? function

Implementation: 5/5

Style: 5/5

Deductions:

Design Total: 26/30

Notes:

: Its always better to define all the data types that are used by your program. Note that
ListOf<Any> has not been defined. Same is the case for
Maybe<AttrValue> etc.

Codewalk Grading:

Partner1:

Q&A: 9/10
Data Design Alternatives: 5/5
Presentation: 5/5

Deductions:

: Could not answer the higher order functions question

Notes:

Bonus Points: 0

Partner 1 Codewalk Total 19/20

Partner2:

Q&A: 7/10
Data Design Alternatives: 5/5
Presentation: 5/5

Deductions:

- : Could not write a template for compound data
- : Could not answer template (rest(rest..)) question
- : Could not answer HOFc functions question

Notes:

Bonus Points: 0

Partner 2 Codewalk Total: 17/20

Overall Score for Partner 1: 45/50

Overall Score for Partner 2: 43/50

Other Notes:
